### BUILDING OPERATIONS : NUMBER OF NEW HOUSES AND FLATS (PRELIMINARY ESTIMATES)

SOUTH AUSTRALIA

SEPTEMBER QUARTER 1961

Preliminary estimates of the number of new houses and flats commenced, completed, and under construction, during the quarter ended 30th September 1961 are shown in the following tables together with comparisons for previous periods. Table 1 shows numbers of new houses, Table 2 numbers of flats, and Table 3 numbers of new houses and flats combined.

The estimated totals shown for the quarter ended 30th September 1961 have been based on returns obtained from most large builders and a substantial proportion of small builders and owner-builders. Figures should be regarded as tentative only and will be revised when final figures are published in greater detail in the Quarterly Bulletin of Building Statistics, which will be issued about the middle of December 1961.

In Tables 2 and 3 the numbers of flats shown relate to individual new flats constructed as separate living units. Only new flats are included, i.e. flats obtained by the conversion of existing buildings are omitted.

Further particulars regarding definitions used, sources of information, and the scope of these statistics, are shown in the Quarterly Bulletins of Building Statistics.
